## TimberTech Is Expanding Our Relationship With DeckTools In 2010!

WILMINGTON, OHIO - January 13, 2010 -

DeckTools, owned by Simpson Strong-Tie, is an industry-leading deck design and estimating software solution that provides the user the ability to build decks from the ground up and showcase beautiful designs and product solutions to homeowners when selling.

TimberTech is expanding our relationship with DeckTools to offer our partners a nearly complete TimberTech product offering of decking, railing and lighting in the software. This integration will be complete in the first quarter of 2010, so the robust tool can be used to help sell homeowners their dream TimberTech deck!

Current users of DeckTools will be notified by DeckTools of a software update once our products are available. For those interested in purchasing DeckTools, we have secured a 20% savings discount on DeckTools software!

Simply visit: [https://www.decktools.com/dt\\_store.aspx?discount=TimberTech](https://www.decktools.com/dt_store.aspx?discount=TimberTech) when making your software purchase with DeckTools.

Our product expansion in DeckTools is another way we are meeting our customer's needs. As always, TimberTech is committed to providing our channel partners innovative tools they can use to help build or manage their business. Other tools available to TimberTech customers include:

- Free lead management software
- Free Web site creator for contractors
- Access to consumer financing programs for qualified applicants
- Access to professional marketing managers who can help you market your business

To take advantage of these great tools today, contact us at 800-307-7780 or visit [TimberTechDirect.com](http://TimberTechDirect.com).
