

Authentic. Reclaimed. Inspiring.

Bold and multi-tonal, the NEW TimberTech® PRO™ Reserve Collection is a more durable and slip-resistant decking collection that comes in four on-trend colors. The 4-sided cap contains no wood for best fade and stain resistance in its category. Boards in this collection boast a blend of 3-4 earthy hues with a matte finish. Plus, the collection's classic cathedral wood grain pattern is inspired by rough wire-brushed, reclaimed wood.

- Wood and resin composite core protected by a 4-sided cap covering the backside and into the grooves
- The cap does not contain wood particles, making it more mold-resistant than the competition
- Proprietary Mold Guard™ Technology to stave off mold- and moisture-damage
- Two on-trend gray shades available to accommodate modern homeowner preferences

	 RESERVE COLLECTION	TREX TRANSCEND COLLECTION
