Decking & Railing 101

Designing your ideal outdoor space doesn’t have to be difficult. Use this guide in tandem with your catalog or TimberTech.com to kick off your project.

Get familiar with the design terms you’ll be using to work with a contractor and complete your project. With this guide helping you plan your design project, there’s no need to be overwhelmed by the nitty-gritty details of choosing your decking and railing.

So, use our quick tips — and your natural style sense — to start confidently speaking the same language as a deck designer and bring your vision to life.
Style Starts With Color

When it comes to your outdoor living space, you have a lot of options to choose from. Start by selecting the decking hue that speaks to you.

**GRAY HUES**

- **MODERATELY VARIEGATED**
- **HIGHLY VARIEGATED**
- **VARIEGATED CASCADING**
Do Decking Differently™

NEW MULTI-WIDTH DECKING

Standard width decking is not the standard anymore. You can now choose narrow or wide width boards to add a touch of the unexpected — and an element of style. Follow the wide width flooring trend making its way outdoors. Tap into the coastal vibe with narrow width decking. Or, turn up the volume on your deck design by mixing and matching all three widths.
NARROW WIDTH - 3.5”
Take your taste for sleek lines from the inside of your home to your outdoor deck with narrow width boards.

STANDARD WIDTH

WIDE WIDTH
STANDARD WIDTH - 5.5”
The same technological superiority and design versatility but in the classic width we all know and love.

WIDE WIDTH

7.25”
WIDE WIDTH - 7.25”

It's time you think big for your outdoor living space. Opt for wide width deck boards that show off your style.

REFINED RAILING

Endless Design Options

Mix and match rails, infills, and caps to suit your style.
Design’s The Limit

So, our design experts put together stunning suggestions of deck colors and perfectly placed patterns. Bookmark your favorite deck design or mix and match different style elements to make your outdoor living space uniquely yours. We have everything you need to get started.
ENGLISH WALNUT ™

WIDE WIDTH

STYLE: CLASSIC

Use deck boards for bench seating.

Glass infills for unobstructed views.

Wide width decking.

Premier Railing® with glass infill

ACCENT COLORS

20 21
Spice up classic deck design with wide width decking. This width has taken over indoor flooring and is putting a gorgeous spin on traditional deck design.

**Design Considerations:**
1. Works with any color decking or architectural style  
2. Use a matching color of fascia boards and risers for a uniform look  
3. Turn the design by a few degrees to create a diagonal deck that uses a single width

See our catalog or [TimberTech.com](http://TimberTech.com) to find the collection with the options you prefer.

**Install Considerations:**
1. Requires standard labor  
2. Only needs standard framing for any width board  
3. See more installation directions at [timbertech.com/installation-help](http://timbertech.com/installation-help)
Frame your deck with an accent color.

Accent your space with colorful foliage.

Use CableRail infill for a more sleek, modern touch.

Premier Railing® with cable infill.
Design Considerations:
1. Add a subtle or dramatic accent color for the border
2. Work in extra dimension using two boards or a wide width board to frame it out
3. Match the color of fascia and riser boards to the border for a cohesive look

Install Considerations:
1. Requires standard labor
2. Only needs standard framing for any width board
3. See more installation directions at timbertech.com/installation-help

See our catalog or TimberTech.com to find the collection with the options you prefer.
the assortment
STYLE: REIMAGINED

Use an assortment of widths to create a unique pattern.

For a dramatic effect, use a darker rail color.

**DESIGN CONSIDERATIONS:**

**INSTALL CONSIDERATIONS:**

1. Use contrasting colors for a dramatic effect.
2. Putting a border on the inlay allows for more delineation.
3. Use inlays to create gathering areas on an otherwise expansive deck.

1. Requires moderate labor.
2. May require more framing and additional install time.
3. See more installation directions at timbertech.com/installation-help.

See our catalog or TimberTech.com to find the collection with the options you prefer.
Create a focal point with an inlay design

Placing seating around the design makes for an exclusive space

Narrow width boards allow intricate inlays to shine

START YOUR PROJECT

Let’s get you all decked out! Whether you’re just starting to dream about your ideal deck or are ready to create a customized design that wows, we’re here to help kick off your project using this page, TimberTech.com, or the catalog.

DECKING & RAILING CONSIDERATIONS

Bring your backyard vision to life when you build your ideal deck and pair it with the perfect railing. Before you break ground on your build, take the following questions into consideration.

Consider the architectural style and color story of your existing home. Which decking and railing combos would best complement them?

If you’re planning for a deck with an adventurous design, have you found a contractor that has experience with complex builds?

When it comes to railing, are you looking to keep your views unobstructed with something minimal or make a bold style statement?

Which railing profile do you prefer: classic millwork, modern and minimalist, or a sleek drink rail?

STEP 1 Choose your decking.

Deck board color(s):

Deck board width: □ NARROW (3.5”) □ STANDARD (5.5”) □ WIDE (7.25”)

(Narrow and wide widths only available in Vintage Collection®.)

STEP 2 Select a railing to stand apart from average decks.

Railing name:

Infill type and color:

STEP 3 Consider embedded lighting for ambiance or our DrySpace™ system for second level decks.

Lighting: □ YES □ NO

DrySpace: □ YES □ NO

Now that you’ve been inspired, make your vision come to life using our Deck Designer tool at TimberTech.com/Design/Deck-Designer or price out your project using our Cost Calculator at TimberTech.com/Design/Cost-Calculator today.
