

## LANDMARK COLLECTION™

### Advanced PVC Decking

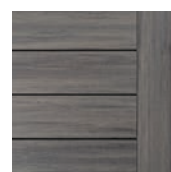

## BOARDWALK®

We're always keeping an eye on outdoor living trends, and lately, homeowners are increasingly seeking weathered wood aesthetics, which is why **we're adding a new color to the rustic Landmark Collection**. Boardwalk is an on-trend gray that resembles hardwoods like white oak or cypress that have been heavily weathered. This light hue rounds out the collection nicely, as it fits in well with the distinct, seasoned wood aesthetic.

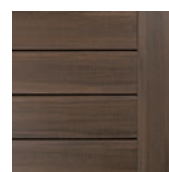

- Inspired by the light gray hue of weathered boardwalks on the coast
- Cascading highlights and lowlights create dramatic coloring for unique board-to-board variation
- Crosscut cathedral grain pattern with a matte finish for a soft yet textured look
- Available in standard width and thickness

## RESERVE COLLECTION

### Composite Decking

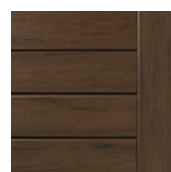

## RECLAIMED CHESTNUT™

Given the growing demand for weathered, reclaimed wood among homeowners, **we're adding a new inviting color to the Reserve Collection**. This new light brown tone resembles chestnut or white oak, but with a gray cast that reflects gentle weathering. The effect is a cool yet inviting light brown hue with multi-tonal coloring and a rustic cathedral grain.

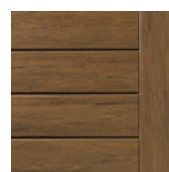

- Inspired by weathered chestnut that might be found in reclaimed barn wood
- Advanced color blending with a mix of vibrant hues
- Heavy wire-brushed cathedral grain pattern for rustic texture
- Available in standard width and thickness

## CORTEX® FASTENERS: PLUGS SOLD SEPARATELY

The Cortex fastening system, is moving to a plugs-sold-separately model to better serve contractor and builder needs. Compatible with all TimberTech full-profile deck boards, Cortex fasteners include screws and material-matched plugs made of TimberTech decking that completely hide the screws.

- **NEW!** Plugs sold in bulk independently from the screws
- Mix and match with other TimberTech fasteners:
  - 305 Stainless Steel (TOPLoc® for Advanced PVC)
  - **NEW!** 316 Stainless Steel (Cortex for TimberTech Decking)
  - Carbon Steel (Cortex for TimberTech Decking or Cladding)
- Kitted Cortex (plugs & screws sold together) will remain active

## RELAUNCHING TIMBERTECH RAILING WITH AN EXPANDED PORTFOLIO

To make our railing more design-forward and accessible, we've refined and expanded our portfolio, delivering high-performance, customizable components featuring high-style designs at every price point. Now you'll be able to deliver the perfect railing for every budget.

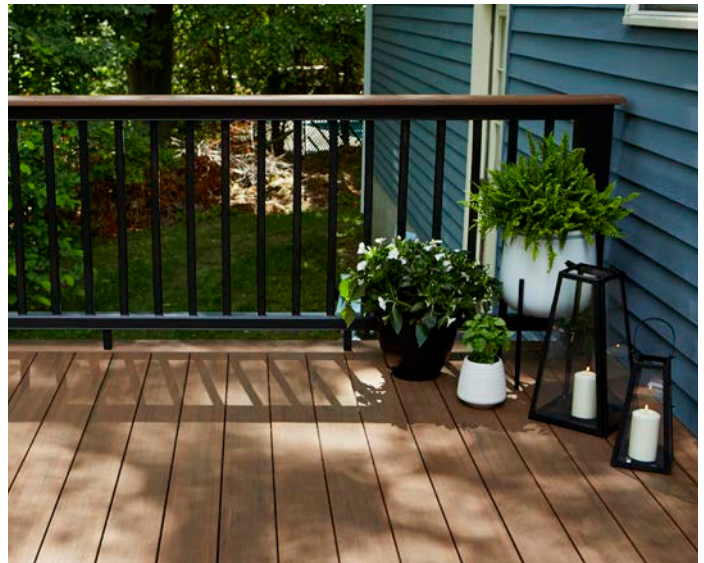

### CLASSIC COMPOSITE SERIES

#### *Composite Railing*

#### **MATTE BLACK**

Bring the boldness of black with a soft matte finish to your deck design. Matte Black for the Classic Composite Series is now available for all top rails (excluding Trademark Rail), composite posts, and composite balusters. Plus, it's protected by a 25-Year Fade & Stain Warranty (exclusive to matte colors). And you'll still enjoy all the benefits of TimberTech composite railing, including:

- Protective polymer cap that resists moisture damage such as mold, mildew, rot, cracking, splitting, and warping
- Resistant to scratches, stains, and insects
- Extremely low maintenance: No sanding, staining, or sealing — ever

### NEW RAILING MATERIAL: PVC RAILING

The TimberTech Railing portfolio is expanding to include two new PVC top rail options. Made from extruded PVC and reinforced with an aluminum core, our PVC railing delivers super high-performance.

- Superior durability with quality components: PVC with aluminum reinforcement + stainless steel hardware
- Best moisture resistance: Won't crack, chip, rot, swell, or split
- UV-resistant for color protection
- Lightweight for easier handling
- Paintable for a custom look, but not required
- Milled wood-inspired design
- Elevated design potential: Sharp corners and tight, clean lines
