TimberTech's Newest Outdoor Living Products

Terrain+ Collection in Weathered Oak

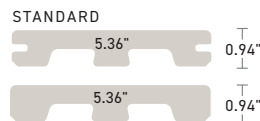

## COMPOSITE

### TERRAIN+ COLLECTION™

#### Subtle Wood Grain

With new and improved color blending technology, these boards deliver sophisticated colors with a subtle grain pattern like sanded white oak and walnut for a versatile, natural wood look.

- Curated palette of colors with low-gloss matte finishes that can be used in mixed-color patterns
- Compatible with CORTEX® hidden fasteners
- Four-sided capping for superior moisture resistance—even in the grooves
- Available in standard width and thickness, with a scalloped profile
- Covered by 30-Year Limited Product and Fade & Stain Warranties

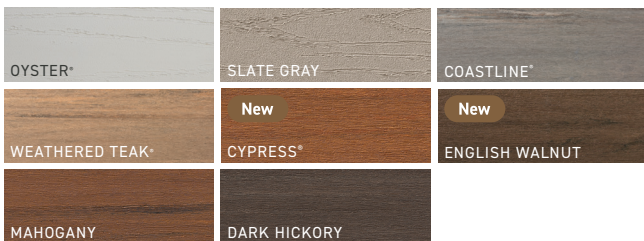

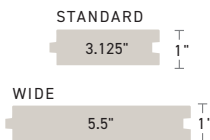

## ADVANCED PVC

### PORCH COLLECTION

#### Hardwoods & Stained Wood

The English Walnut and Cypress colors that you know and love in the Vintage Collection® are now available in both standard and wide-width tongue-and-groove profile for porch and cladding applications.

- Standard (3.125") available in all colors
- Wide-width (5.5") available in Coastline, Cypress, Dark Hickory, English Walnut, Mahogany, and Weathered Teak

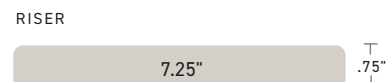

## ADVANCED PVC

### RISER

Reduce waste and save time and money with Riser Boards now available for Advanced PVC

- Thicker 3/4" profile to enable Cortex installation
- Lower priced than Fascia and Wide-Width Decking
- Protective top cap wraps around three sides

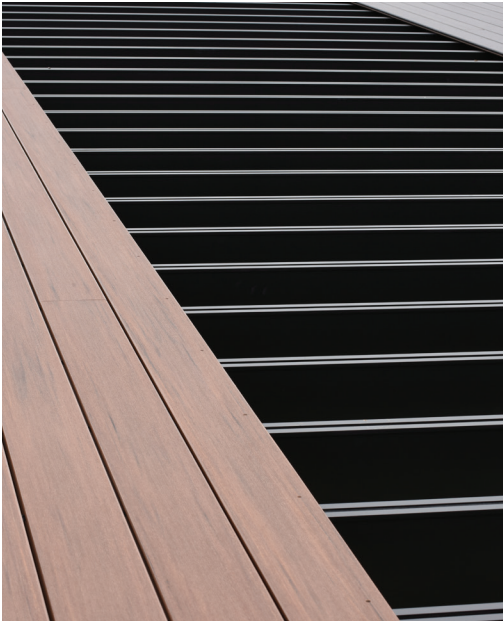

### COLLATED CORTEX® PLUGS FOR COMPOSITE DECKING

The most aesthetically pleasing, top-down fastening system is now even more convenient.

- Collated plugs with pre-aligned grain pattern provide 50% faster installation
- Material-matched plugs now available in all TimberTech full-profile Composite collections and colors (NOT available for Terrain®, Prime+, and Prime Collection boards)
- Convenient 300 sq. ft. kits available include: 1050 2 1/2" carbon steel screws, 1200 plugs, 6 setting tools
- Composite decking needs predrilling before installing Cortex screws

## TIMBERTECH ALUMINUM FRAMING

With TimberTech Aluminum Framing, deck builders and homeowners both gain notable benefits. Homeowners get a solid deck substructure that simply won't rot, meaning a long life. Builders find a full solution with engineered components designed to work together and install easily.

### Why Aluminum?

**HIGH STRENGTH** Longer spans than 2 x 10 wood joists are possible

**LONG LIFE** Won't rot like wood, won't rust like steel; excellent choice for fire zones

**EASY TO WORK WITH** Lightweight, easy to cut, no sanding, installs straight and flat

**ENGINEERED SMART** Fewer nuts and bolts and less on-site fabrication necessary

**FULL-CIRCLE** Starts with recycled aluminum; can be recycled at end of life

### Because it's from TimberTech, you know our aluminum framing is:

- Compatible with all TimberTech decking and railing systems
- Suitable for all parts of the deck substructure, including stairs
- Covered by a 25-Year Limited Product Warranty

## TimberTech R A I L I N G

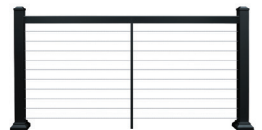

## HORIZONTAL CABLE INFILL FOR IMPRESSION RAIL EXPRESS®

Horizontal Cable infill for Impression Rail Express gives a new look—and almost unobstructed view—to this popular, powder-coated aluminum railing system.
